## LET'S ROLL BIKE BRINGLE LAKE

BY ALANA MOREL

The Bringle Lake Wilderness trail is a loop trail that measures approximately five and a half miles long, perfect for biking, hiking, walking, jogging, and exploring! Along the paths are mountain bike trails that have been developed and maintained by citizen volunteers and city staff. Bringle Lake Trail is a "Top 25 Mountain Bike Trail in Texas," according to *singletracks.com*.

These trails range from beginner and intermediate to advanced within the Bringle Lake Park Wilderness Area. The best entrance is from Bringle Lake Park East. This trail leads to the Waterworks Spillway, where new art will be added along the Art Walk soon. The trail continues around the Texarkana Golf Ranch and back to University Avenue.
